

# PHILLBERT NEVIN EMMANUEL

## Business Intelligence Analyst

A results-driven Information Systems professional with over one year of experience in business intelligence and web development. Proven track record of designing and deploying interactive analytical dashboards, optimizing data pipelines, and building RESTful APIs and user interfaces using ASP.NET Core. Skilled in SQL, Python, advanced Excel, and CI/CD automation, with a strong aptitude for translating complex data into actionable insights and driving cross-functional collaboration to enhance operational efficiency.

## WORK EXPERIENCE

### PT Evotech Distribusi

Web Developer

04/2025 - 06/2025

- Transitioned into Web Developer role while continuing Business Intelligence Analyst responsibilities.
- Organized and configured Gitea repositories using Docker Compose and runner scripts, establishing CI/CD, streamlining development workflows and reducing deployment time by 30%.
- Developed ASP.NET Core API and Blazor Server user interface for SKU, Model, and Brand management, increasing data input efficiency by 25% through Excel import functionality via ClosedXML.
- Led development of Value Added-Service (VAS) management feature, formulated custom CRUD operations and validation constraints, ensuring data consistency and minimizing errors by 40%.

### Business Intelligence Analyst

06/2024 - 06/2025

- Delivered end-to-end analytical solution, encompassing requirement gathering, performing data cleaning, statistical analysis, and dashboard development, while worked with cross-functional teams for BI dashboard maintenance, accelerating business growth through insights-driven decisions by 20%.
- Collaborated with data scientists in a team of 3 to optimize the loading of 1M+ daily sales rows, implementing incremental API-to-Qlik Sense pipelines with QVD, resulting in 95% faster load times.
- Orchestrated REST API integrations using Outsystems and LINQ from sales, customer and warehouse databases, expanding data accessibility by 50% and enabling unified analytics.
- Designed, deployed and monitored interactive BI dashboards using Qlik Sense, enhancing data visualization and driving a 35% advancement in operational efficiency.

## PORTFOLIO PROJECTS

### Automated Incentive Management Solution for Driver, Sales Target, and Resort Dashboard 10/2024

Built and maintained automated incentive dashboards for drivers, sales, and resort stores, while coordinating across requirement, testing, and production phases for shipment and driver assignment logic, sales and product-level target modules, and tagging systems for new store categories. Implemented reward eligibility logic using Qlik Sense calculation expressions, improving data clarity and reducing manual corrections by 30%, while accelerating incentive reporting by 60%. Collaborated closely with internal teams and stakeholders to validate business logic and ensured continuous alignment with evolving client requirements across all modules. Contributed to post-deployment monitoring and iterative updates based on production feedback.

### Inventory and Stock Card Dashboard 09/2024

Scalable dashboard integrating WMS REST APIs and advanced SQL window functions to consolidate data from 5+ bin placement types across 3,000+ SKUs into accurate, actionable views. Reducing inventory tracking time by 30% and increasing stock reconciliation speed by 70%.

## CONTACT

+62 813 3809 8152

nevinphillbert15@gmail.com

South Jakarta, 12540

## EDUCATION

2019 - 2023

### Universitas Advent Indonesia

Bachelor of Technology,

Information System Major

GPA: 3.71/4.0 (*magna cum laude*)

## SKILLS

- Programming: C# (ASP.NET Core, Entity Framework Core), Python, OutSystems
- Data Analytics & BI: SQL Server, Excel, Qlik Sense, Tableau, Power BI
- KPI & Dashboard Development: KPI modeling, dashboard design and development
- ETL & Data Integration: REST API orchestration, incremental data loading (e.g., QVD pipelines), automation scripting for pipelines
- Web Development: Front-end and back-end implementation
- Business & Project Skills: Business analysis, project management, teamwork, time management, leadership

## CERTIFICATION

- Business Analyst: Mastering Excel & Power BI – Habiskerja.com
- Microsoft Office Specialist: Excel – MicrosoftTechnology Associate
- Data Analytics Bootcamp – Analyst Builder
